

International Seminar Social Theory and Dynamic Network Analysis

July 10, 2009

Sala de Juntes, Facultat de Lletres

9:30-14:00.

UAB

This International Seminar is intended for researchers and graduate students interested in Social theory and Social Network Dynamics. The aim of the Seminar is to gain a better understanding of both epistemological and methodological dimensions of longitudinal network data in order to contribute to Social Theory development.

The seminar includes presentations focused on theoretical issues from **Michel Grossetti** (Toulouse, CNRS) and **Claire Bidart** (Aix-en-Provence, CNRS), and applications to substantive case studies using **SIENA**.
